Projects

Project Remind – All-in-One Event Planner (Kotlin, Android Studio, SQLite, Firebase) *August 2024 - December 2024*

- Lead a 14-week group project to create, document and present a working software application
- Implemented core features such as event creation, task auto-conversion, priority-based task sorting, and customizable reminders
- Ensured reliability with offline functionality, background notifications, and efficient error handling mechanisms
- Conducted rigorous testing on Android devices to optimize performance, responsiveness, and user experience

Calendar App (React, Vite, JavaScript, CSS)

August 2024 - Present

- Developing a responsive calendar application with event scheduling features
- Implementing interactive UI components using React and Vite for fast performance
- Utilizing state management and React hooks to handle event creation and updates
- Enforced best coding practices with ESLint and Prettier for maintainable code
- Optimizing cross-browser compatibility and mobile responsiveness

Certifications & Awards

Responsive Web Design Certification: freeCodeCamp.com

Issued January 2024

- Dedicated over 300 hours to learning HTML and CSS as well as applying what I learned to create five certification projects

Certificate of Participation, T.D. Jakes Foundation STEAM Academy

Issued July 2020

- Participated in the first virtual STEAM Academy hosted by the T.D. Jakes Foundation which included three hours of weekly coding courses

Future Instructor Certificate, Martial Arts and More

Issued December 2018

- Assisted in leading Kempo and Jiu-Jitsu classes for three and a half years as well as taking a course focused on leadership skills, teaching and correction techniques, and good customer service/conflict resolution strategies

Clubs

AI@UNCP Club, University of North Carolina Pembroke
Member

February 2024 - Present

- Attend and participate in monthly programming challenges as well as engaging in meetings to discuss marketing ideas and club activity promotion
- Engage in programming challenges and discussions on AI and innovation
- Participate in collaborative projects and marketing initiatives for club growth

Martial Arts & More, Jacksonville, NC
Masters Club Member

July 2016 – January 2020

- Consistently participated in a wide range of martial arts styles, including Brazilian Jiu-Jitsu, Kempo Karate, Mixed Martial Arts, and Kickboxing
- Assisted in teaching Jiu-Jitsu and karate classes, ran events for both members at the school and community events with non-members
- Responsible for helping come up with class plan outlines, managing large groups to optimize the available time, and coordinating other assistant instructors' tasks and responsibilities during events
